

Door Closers – CLC25 Concealed

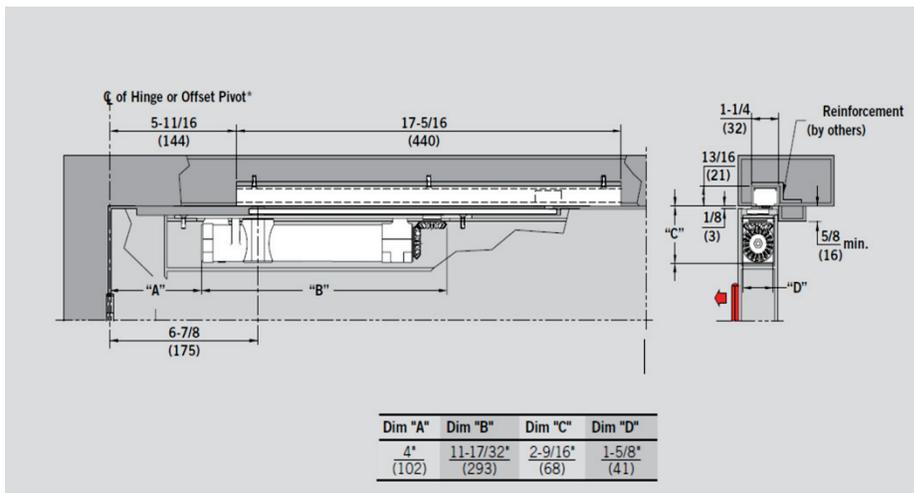

Advancing Syntégra’s deeper integration objectives, the CLC25 provides the optimum solution for applications benefiting from concealed door controls. The CLC25 offers a feature set typically found only in full-size surface closers. This ultra-compact concealed closer provides flawless door control with out-of-sight aesthetic benefits.

Syntégra proudly supplies custom-configured Dorma closers with their integrated door systems.
